Sous Raccoon 1.0 is out now, and Chef still hasn't fired the raccoon

BANGKOK, Thailand, October 1, 2026 - Novice Flow and Rising Tide Publishing today released Sous Raccoon 1.0 on Steam. The adorably hardcore cooking roguelite is out of Early Access with Endless Mode, a final boss, a brand new bar with three minigames, 13 new skins and online co-op for up to four raccoons.

You're Elmo, a raccoon thief turned sous chef, working for a Chef with a very short fuse. Cook the orders, serve the customers and keep the monsters off them long enough to finish the shift. Drop the ball and Chef fires you. Every run changes the restaurant, the upgrades and the kind of chaos walking through the door.

Sous Raccoon 1.0 is out now on Steam for $14.99.

Novice Flow, Bangkok	Rising Tide Publishing	Cooking roguelite, 1 to 4 players	PC (Steam)	$14.99

What's new in 1.0

- **Endless Mode:** keep the restaurant open for as long as you can take it. More customers and more monsters every day, then a score summary and a spot on the Steam Leaderboards.
- **The final boss:** kept under wraps the whole way through Early Access. It's waiting at Stage 4. That's all we're saying.
- **The bar:** three minigames in the Lobby, solo or co-op. Mix Food, Tower Stack and Barrel Blast each have their own leaderboard.
- **13 new skins:** 21 in total, and some only unlock through Steam Achievements.
- **Your own room:** buy furniture and swap styles and colors. In co-op every raccoon keeps their own room.
- **A new soundtrack:** music for every stage that shifts with the mood, from easy service to the moment Chef loses it.
- **Controller and co-op polish:** menus on the D-pad or stick, Steam On-Screen Keyboard support, a new co-op tutorial and a long list of fixes.

Press quotes

"There is a surprisingly enjoyable little game hiding underneath all the shouting."

James Luff, LadiesGamers

"Sous Raccoon looks ready to turn ordinary dinner service into complete mayhem."

Deepak Chongtham, COGconnected

Online co-op

Online co-op takes up to four raccoons into the same kitchen. Split the cooking, split the fighting, and argue about whose fault it was when the customers got eaten.

Sous Raccoon is set across four restaurant worlds, each with its own enemies, hazards and kitchen layout. Earn upgrades and abilities between shifts and prove to Chef that hiring a raccoon wasn't a terrible mistake.

About Novice Flow

Novice Flow is a team of eight students in Bangkok who came together to build the kind of game they'd love to play themselves. Sous Raccoon is the game they always dreamed of making.
